

Welcome to our celebration assembly!

NOVEMBER 1ST 2024

Coach gave us
different
challenges to
develop our
throwing skills!

Sunflowers

We have been busy making sailing boats like the one Christopher Columbus sailed in hundreds of years ago!

We have also been making moving puppets during our planning time.

Poppies

Bluebells

We have explored the famous journey that Christopher Columbus made in the Santa Maria.

We made replica ships in our planning time.

We had a lot of fun
in PE this week.

During our
gymnastics
lessons, we have
been learning
how to travel in
different ways,
ending with star,
straddle and tuck
jumps.

Pines

The Blossoms really enjoyed their first gymnastics session.

They worked on balance and travelling in different ways. They also tried lots of different jumps, such as tuck jumps and star jumps.

Blossoms

This week, we have been trying to replicate Ancient Greek vases.

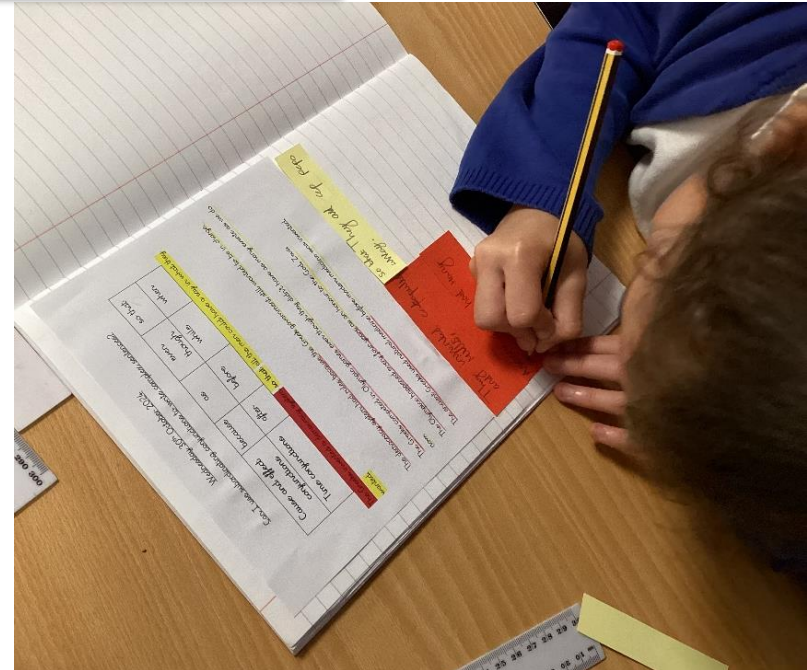

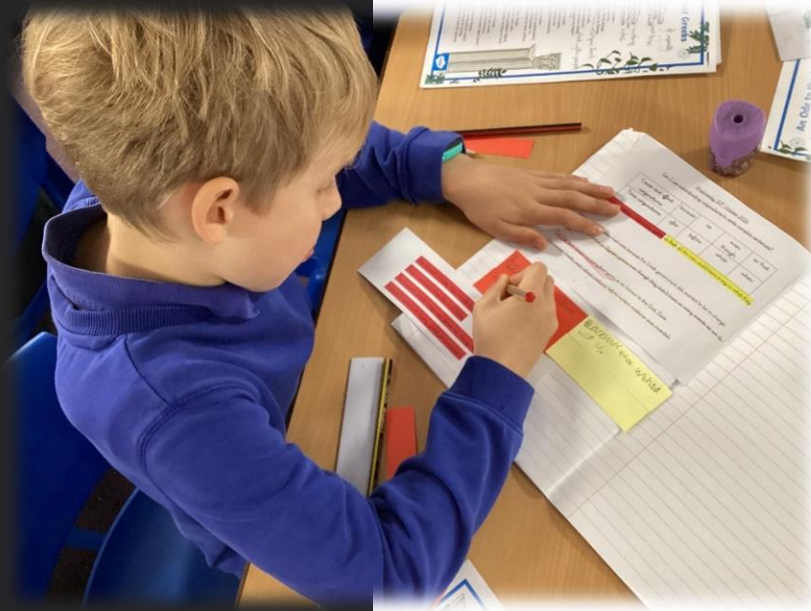

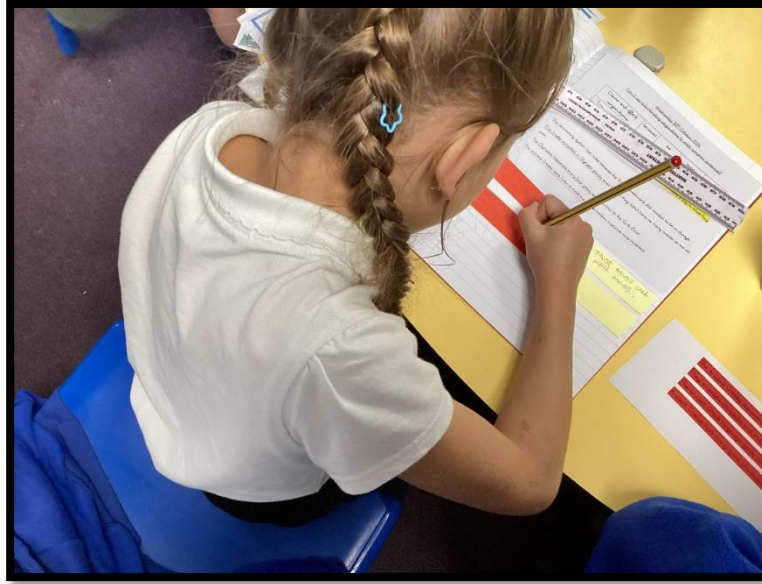

In science, we are starting to look at our skeleton.

We arranged the bones in the correct place and labelled them!

We have been working hard to build complex sentences using conjunctions of time.

Willows

Sycamores

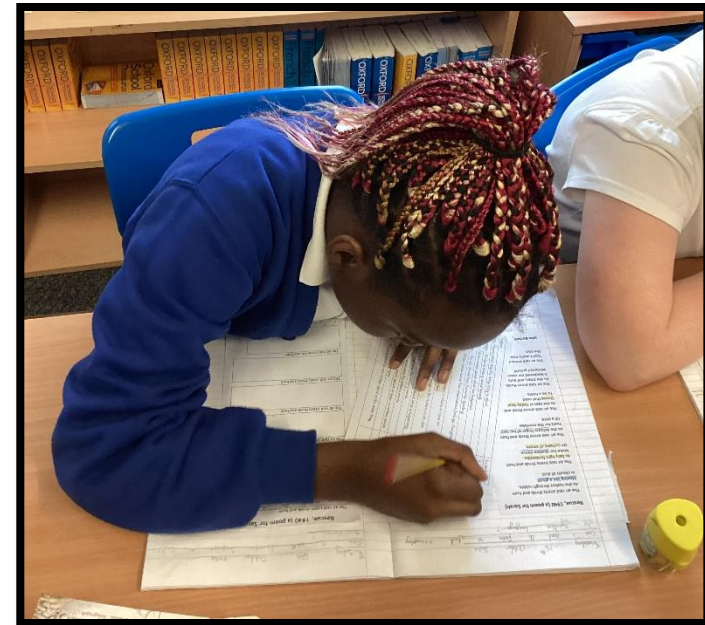

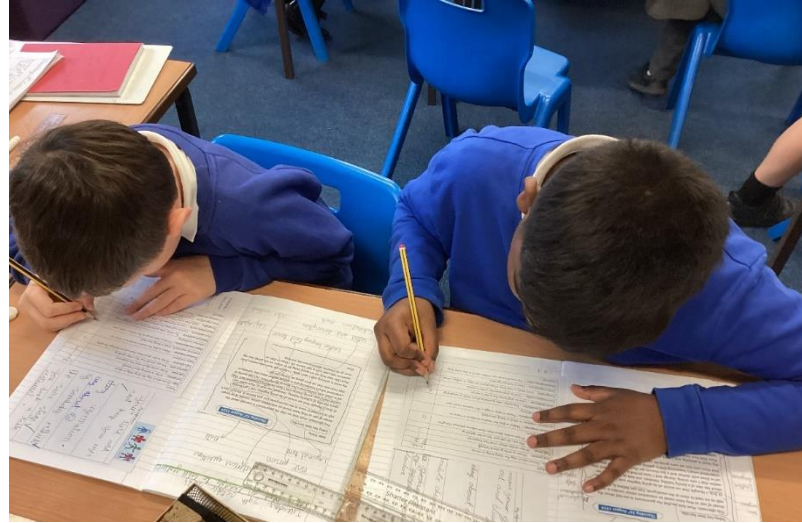

This week, we
have been
practising our
forward rolls.

We have also
enjoyed doing
tuck, pike and
straddle jumps!

Hedgehogs

This week, we have been investigating the features of a diary entry.

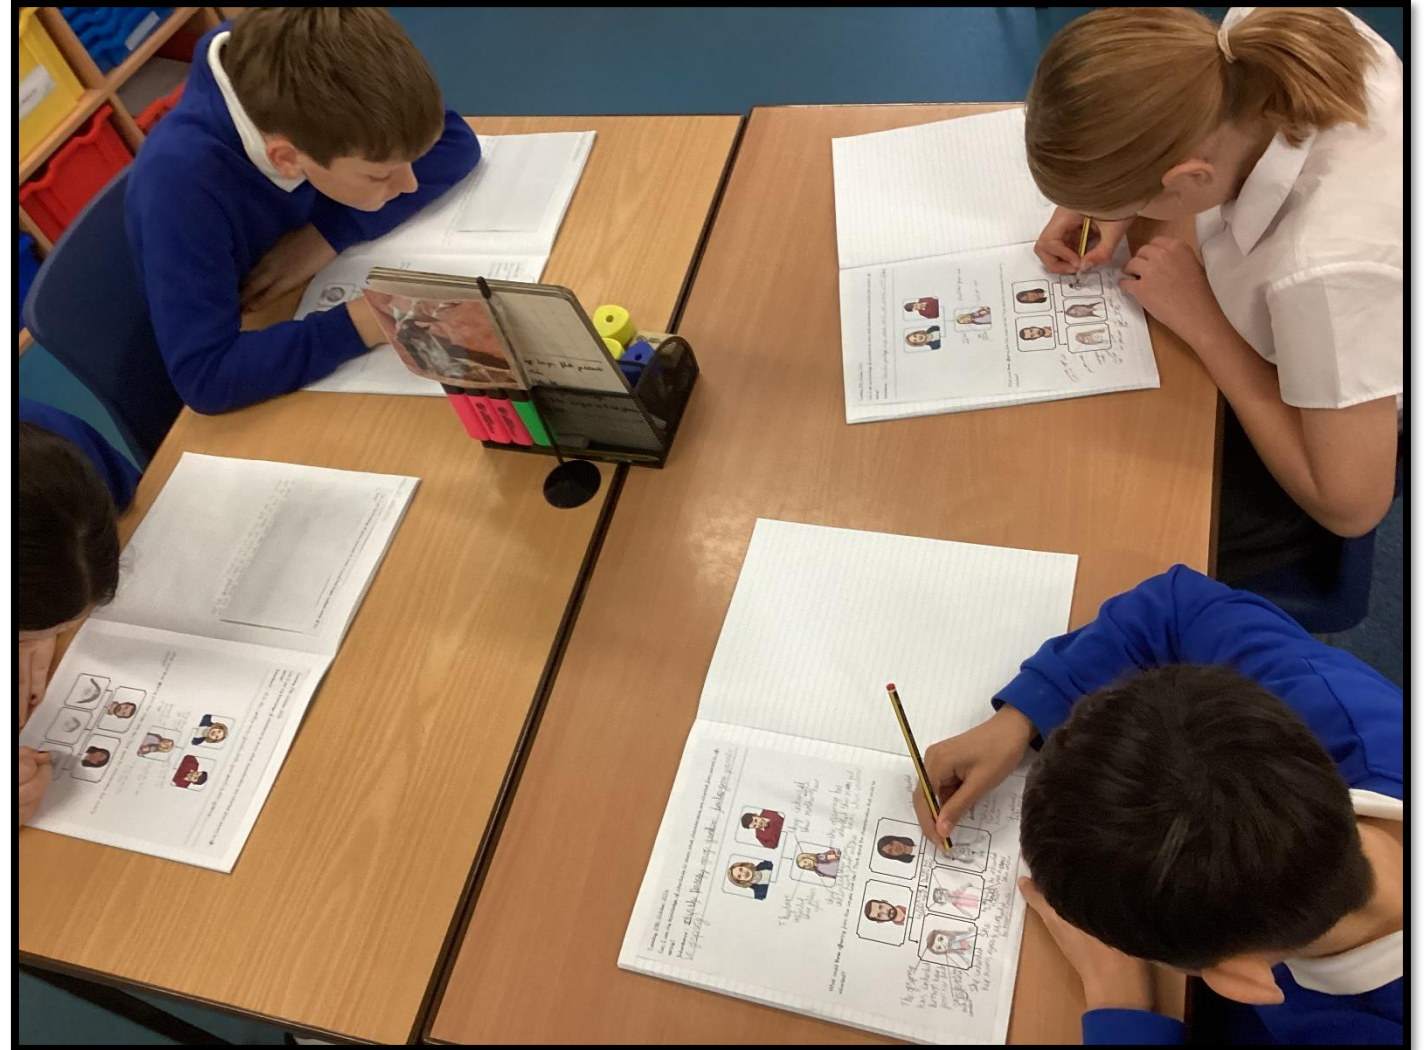

Bunnies

We have started to learn about our new focus artist called Banksy.

We have enjoyed creating our own names in his graffiti style!

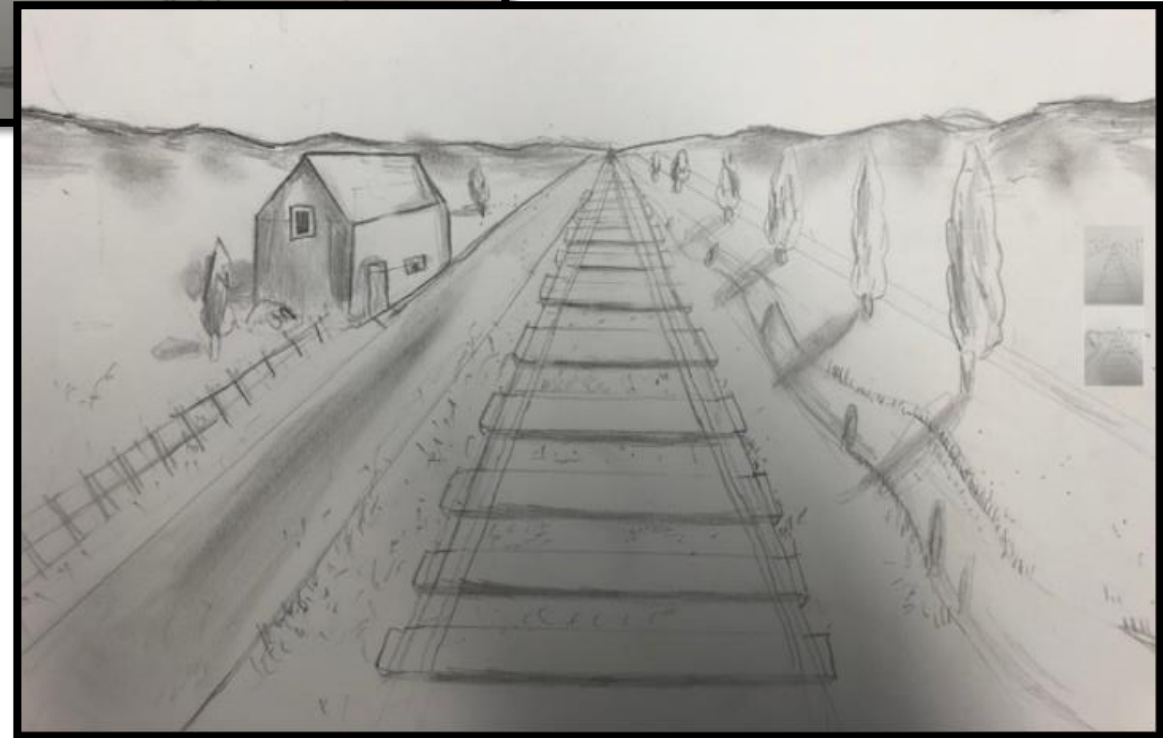

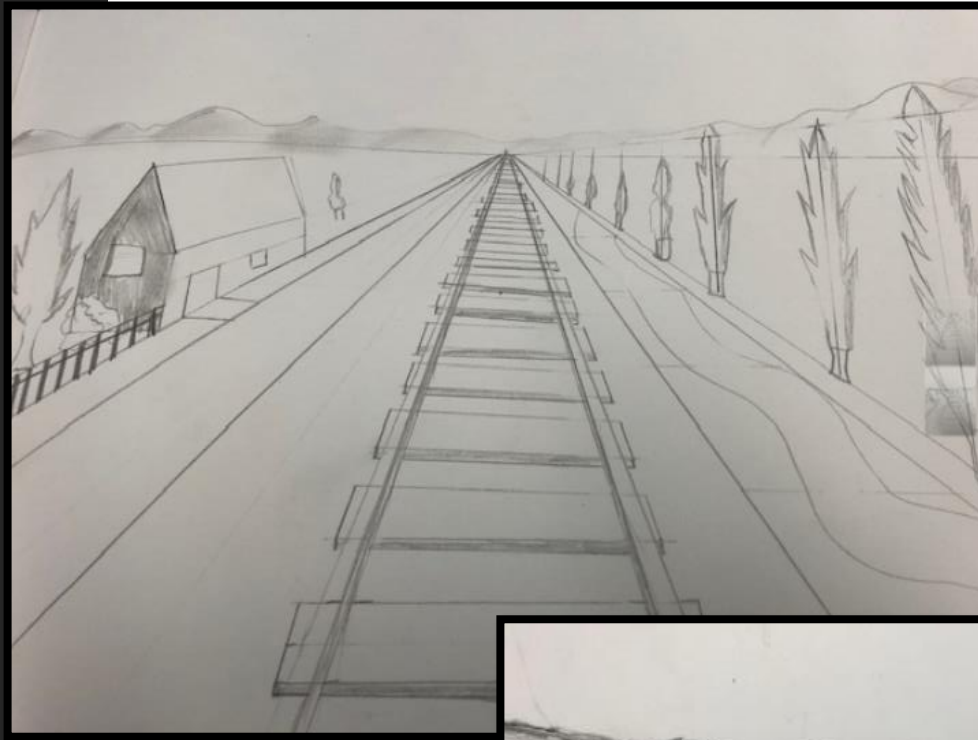

In science, the Goats have been looking at inherited characteristics and how genes are passed down from parent to offspring.

Chipmunks

This week, we have been drawing using perspective.

It's been tricky, but we're definitely improving!

Well done,
everyone!

Together, we
make a great
team!
