

Welcome to our celebration assembly!

JANUARY 24TH 2025

Our Explore term is so much fun!

Here we are using pointillism to make flags, creating a map of the world and constructing famous South Africa landmarks!

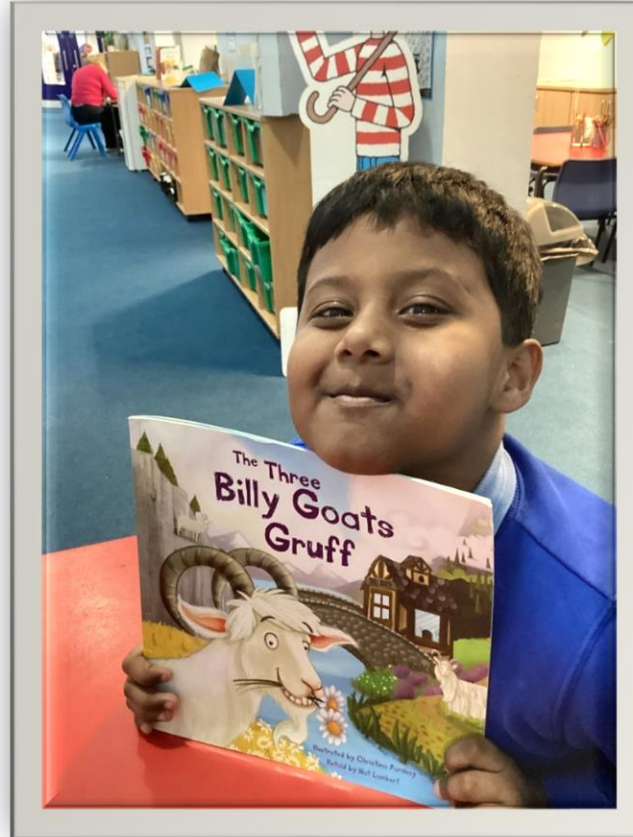

Sunflowers

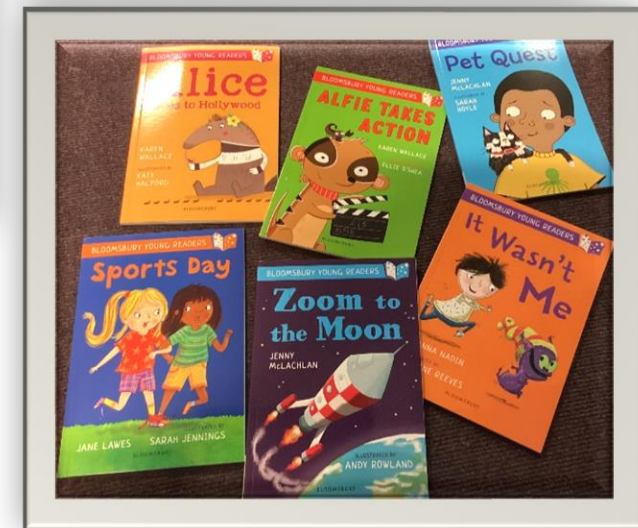

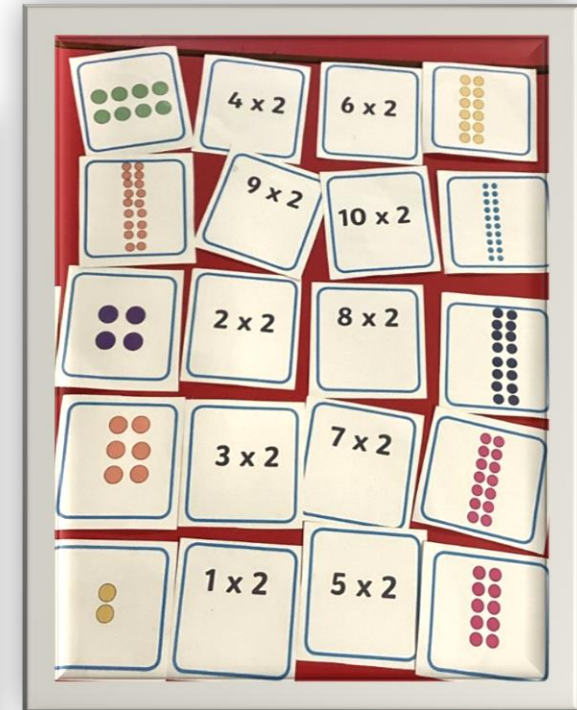

We love sharing stories in the Poppies! We have been enjoying some new books!

We have also been using different resources to match up multiplication number sentences with arrays.

Poppies

Wow! We have worked so hard at writing descriptive sentences about the giant from Jack and the Beanstalk. We putting in effort to improve our handwriting.

Bluebells

The giant's eyes are beady and greedy.
The giant's eyebrows are bushy and spiky.
In the giant's mouth it's dark and toothy.
now!

The giant has two beady
white eyes. ✓ His eye brows
are poofy and brown. ✓
He has a purple neat suit. ✓

At the top of Jack's magical beanstalk
There lives a gigantic giant and
enormous giantess. The giantess is lovely
because she saved Jack by pushing him

"At the top of Jack's magical beanstalk there lives a gigantic giant and an enormous giantess. The giantess is lovely because she saved Jack by pushing him under a teacup... but the giant is not. The giant is a greedy, violent bully. Not only is he a bully but he is also ugly!"

In DT we were learning about pneumatics. This is how air is used to make things move.

We used our learning to make a sarcophagus. We were able to make the mummy inside pop up.

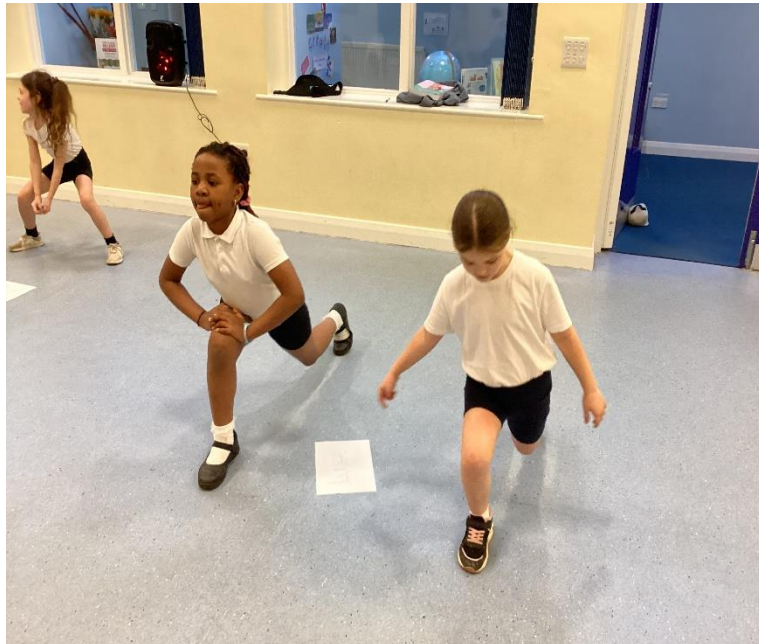

Pines

The Blossoms are really enjoying their PE sessions with Miss Hannah this term. They are working hard on completing circuits.

Blossoms

We have enjoyed circuit training with Miss Hannah. This involved sprinting, jumping, balancing, skipping and hula hooping.

This week, in science, we explored the different teeth that humans have and their function. We used playdough to recreate the shapes of our teeth and gums.

Willows

Sycamores

We have discussed
the importance of
water across the
world.

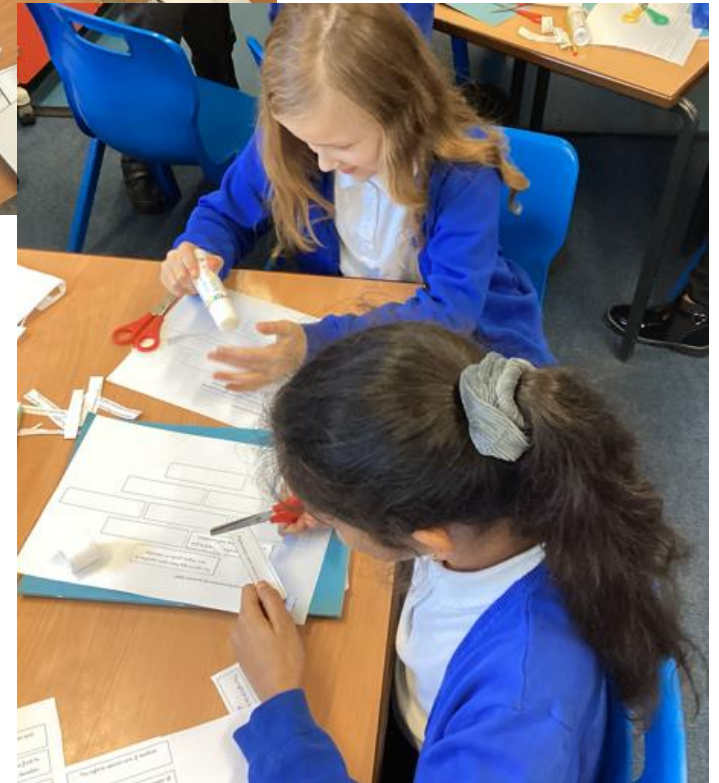

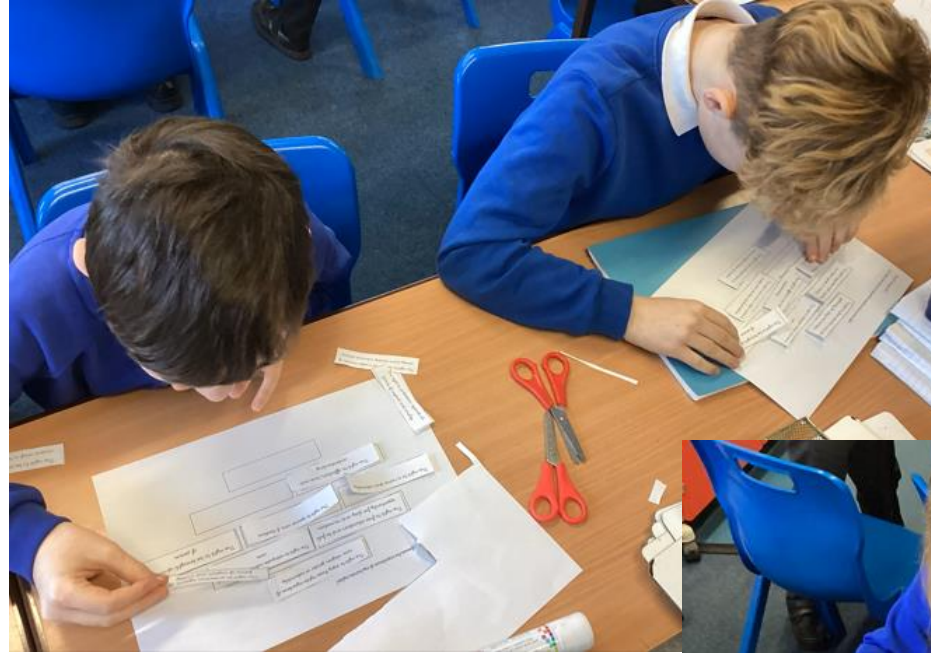

We ranked the uses
of water from most
to least important!

In PSHE, we investigated our rights under the UN Declaration of Human Rights.

We discussed which of these rights we thought were the most important and ordered them.

Hedgehogs

We have enjoyed thinking about how to be good global citizens and how renewable energy can help the planet!

Bunnies

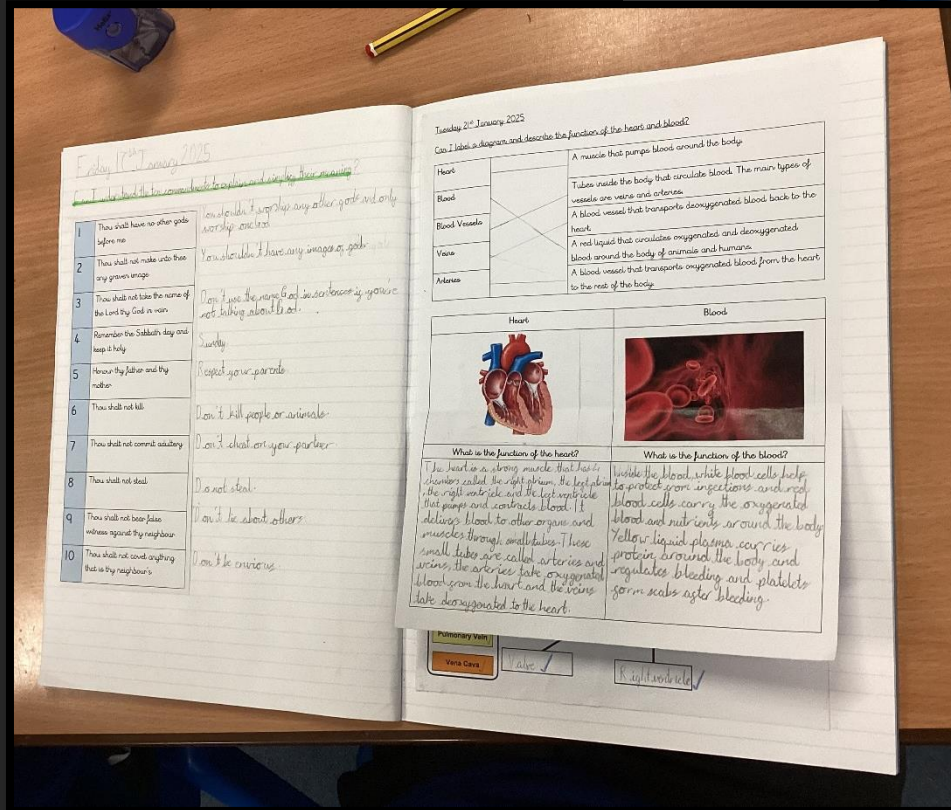

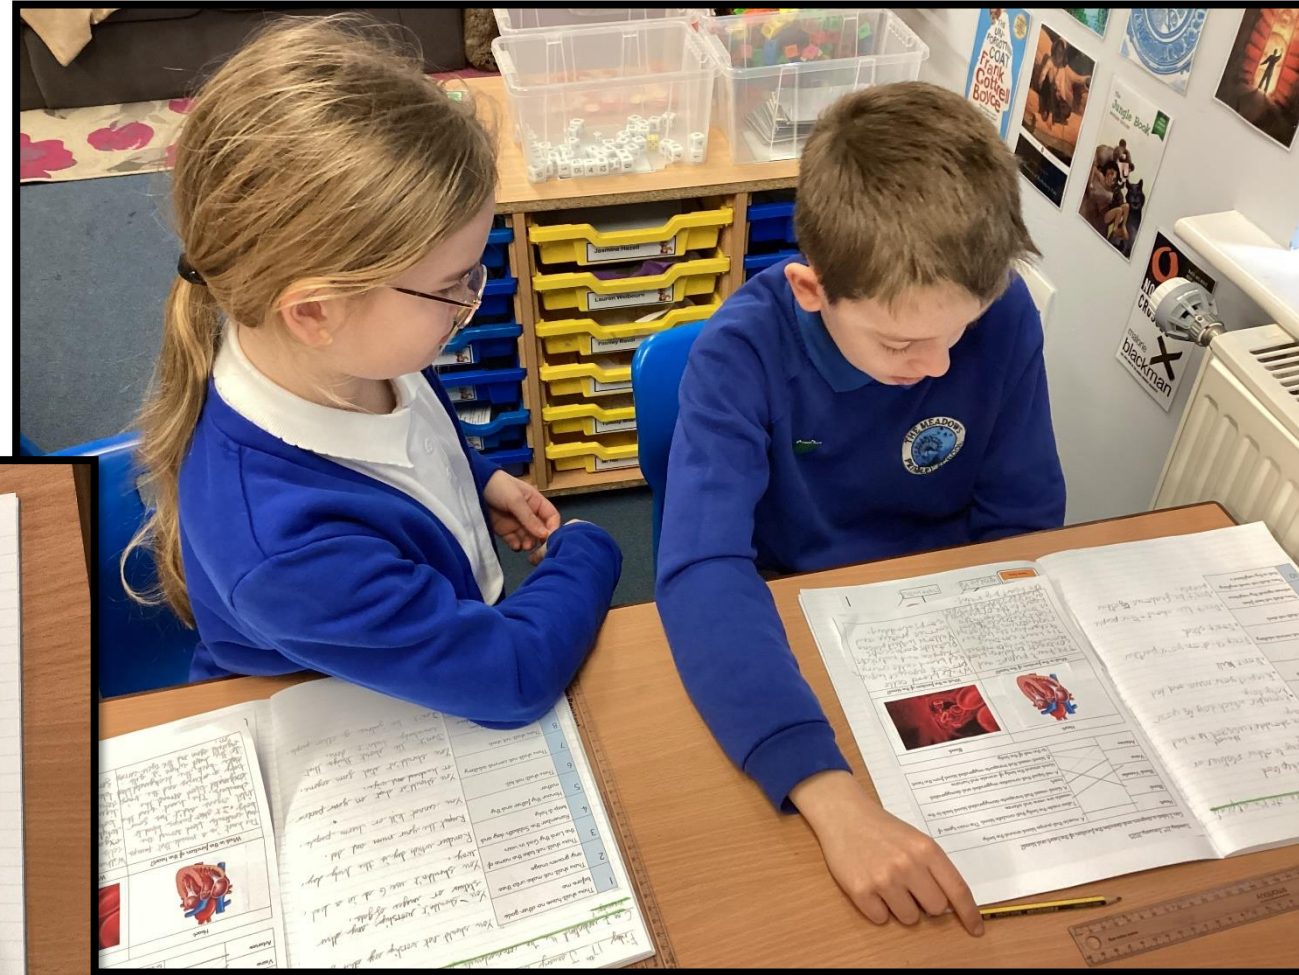

The Goats have been using hot-seating to put themselves into the shoes of our characters.

We have done a fab job of showing how the characters may be feeling and predicting what might happen next!

Goats

In science, we've been exploring how the heart functions!

Well done,
everyone!

Together, we
make a great
team!
