

Welcome to our celebration assembly!

JUNE 6TH 2025

This week we finally released our butterflies! It has been great seeing them transform over the last few weeks!

Caterpillars

It was magical
watching our
butterflies fly off
into the sky!

Butterflies

We have enjoyed
practising our
phonics in
provision this week
– unless we got a
BOOM! card and
had to put all our
cards back!

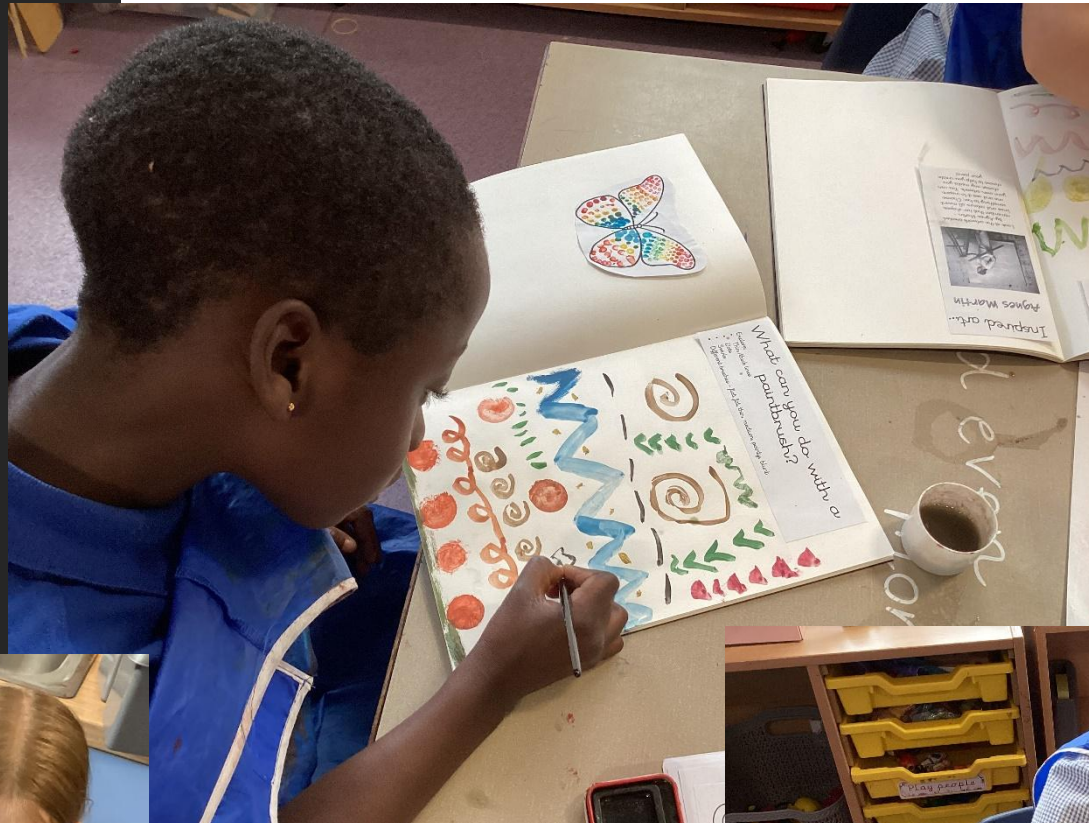

Sunflowers

What can you do
with a paintbrush?
The Poppies have
been exploring!

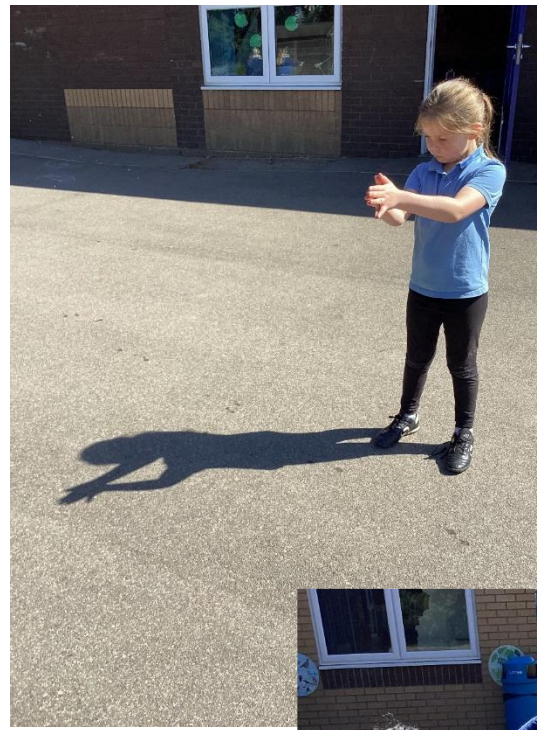

Poppies

We have enjoyed
exploring the
properties of
different materials
as part of our
science work.

In science we have been learning about shadows and how the position of the sun affects the shape and size of the shadow. We made lots of animal, shadow puppets which was great fun!

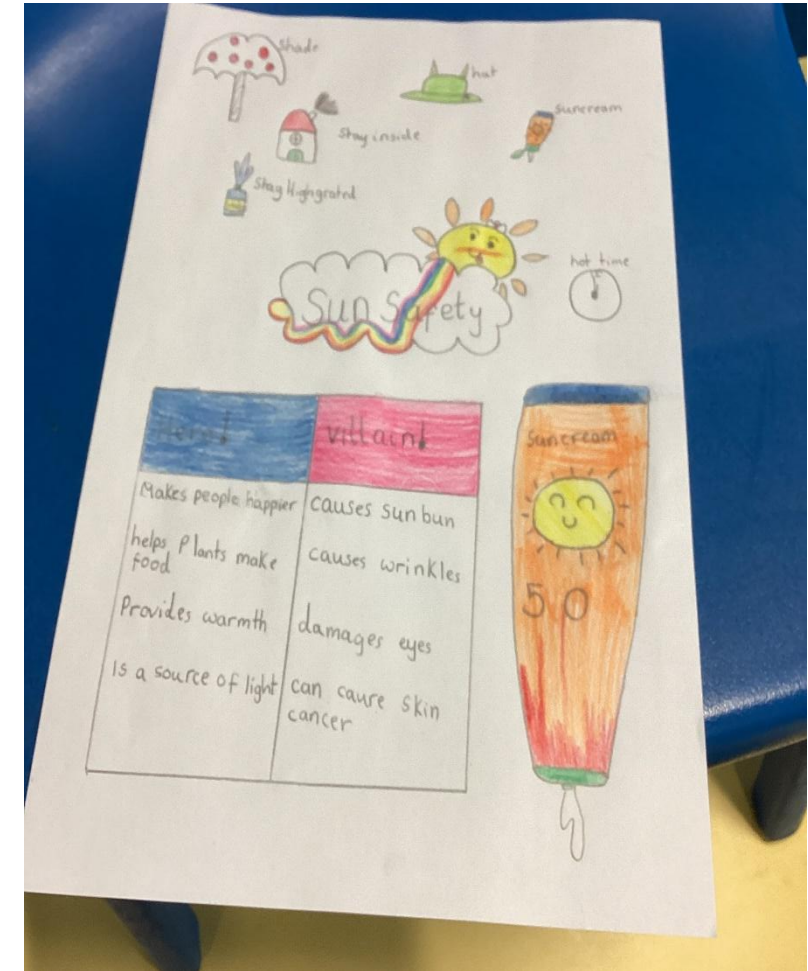

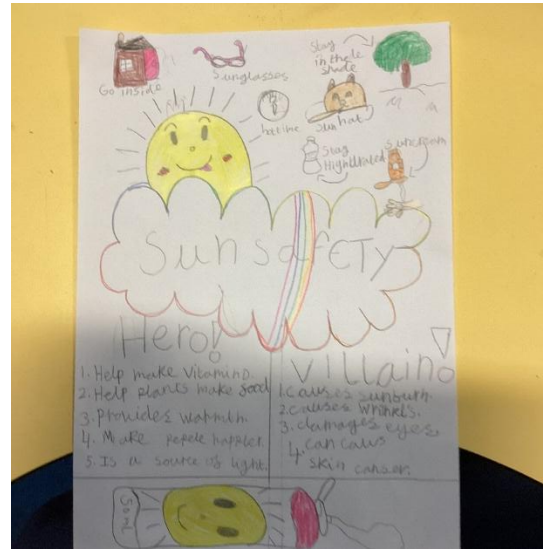

Pines

Blossoms

This week we have been learning about the sun as a source of light in our science work. We have created some wonderful posters about how to stay safe in the sun.

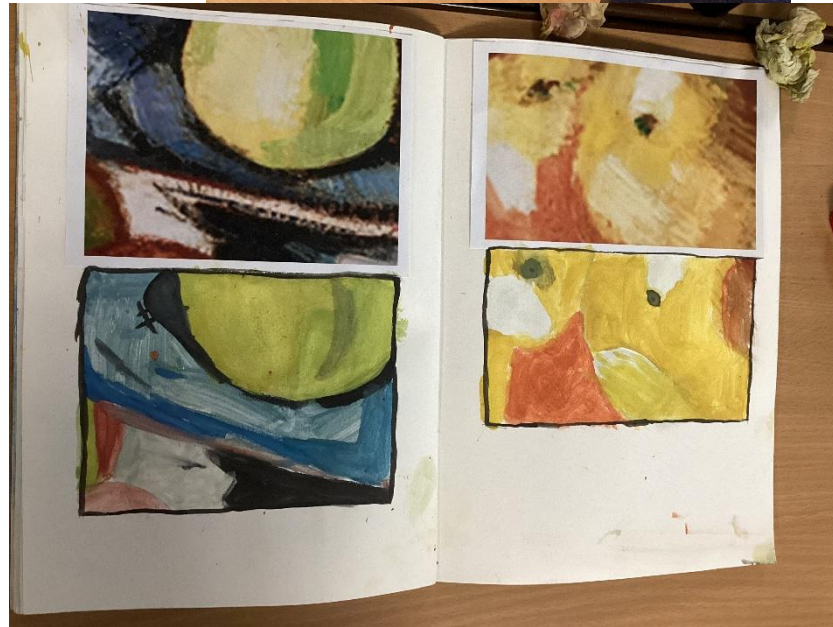

In RE, we
artistically
represented the
chalice from the
Holy Communion.

Oaks

We have worked hard to create art in the style of an artist using watercolours and soft pencil sketching techniques.

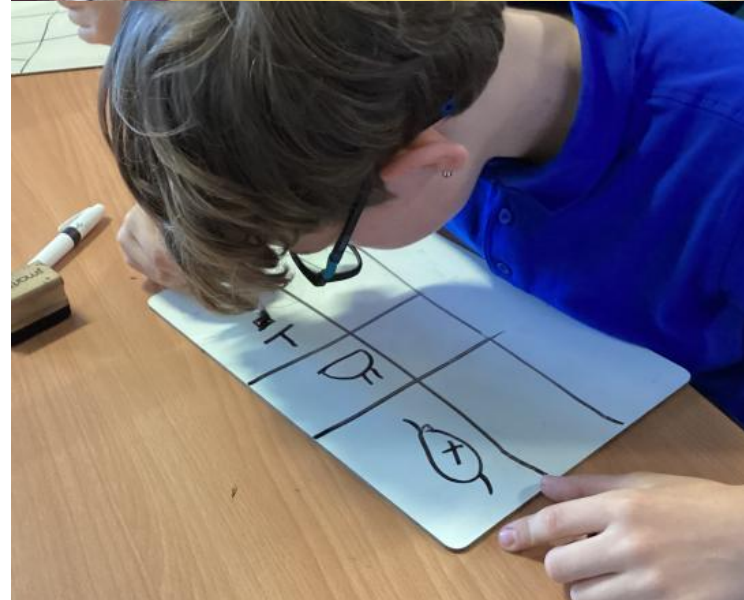

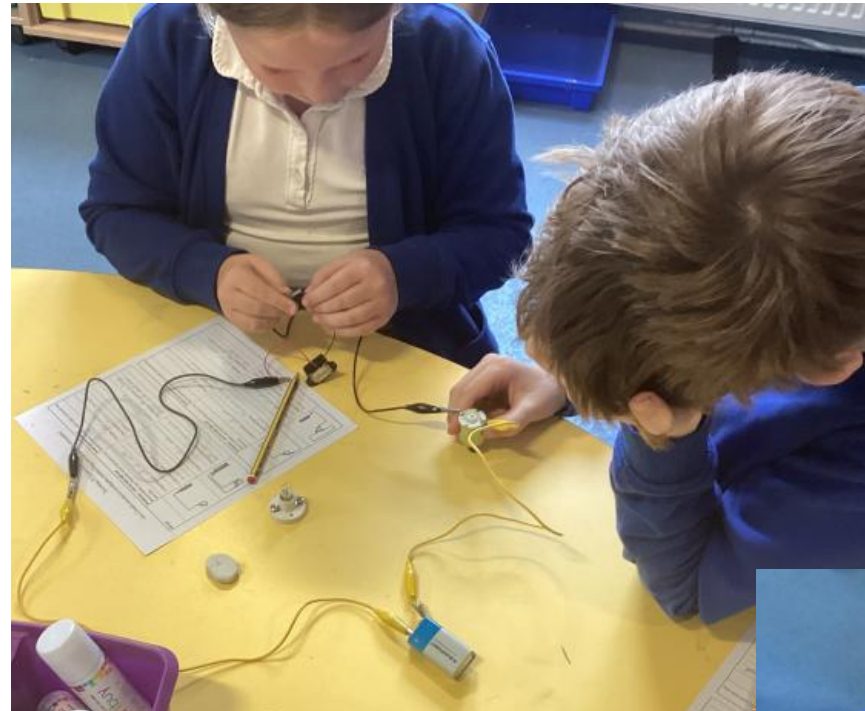

Willows

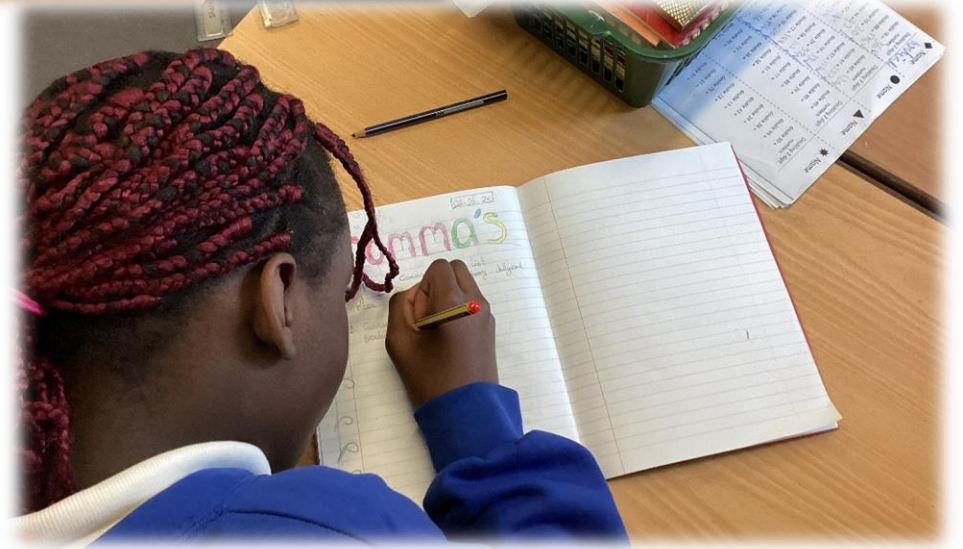

In science, we have been using our skills of prediction to determine whether circuits are complete or incomplete.

Sycamores

Hedgehogs

We have spent time this week using everything we know about commas to create a revision reminder page for our spelling, grammar and punctuation learning.

Bunnies

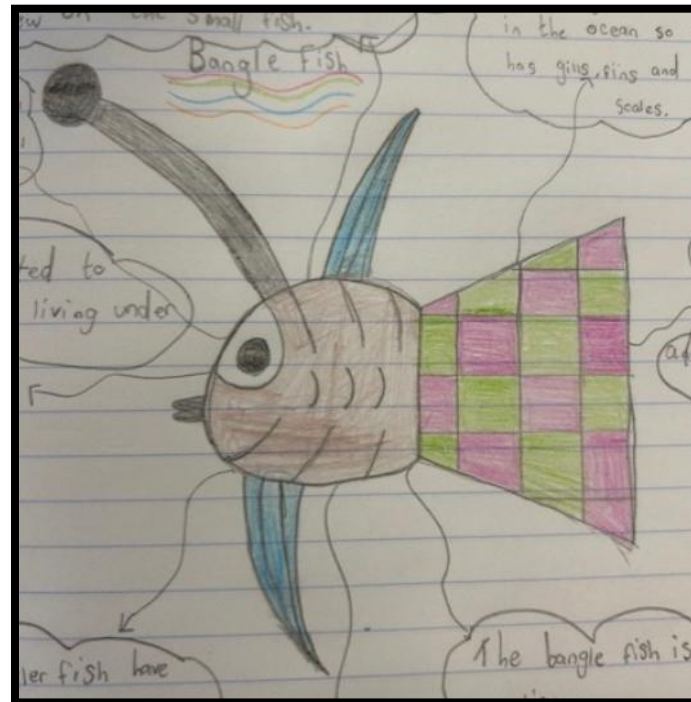

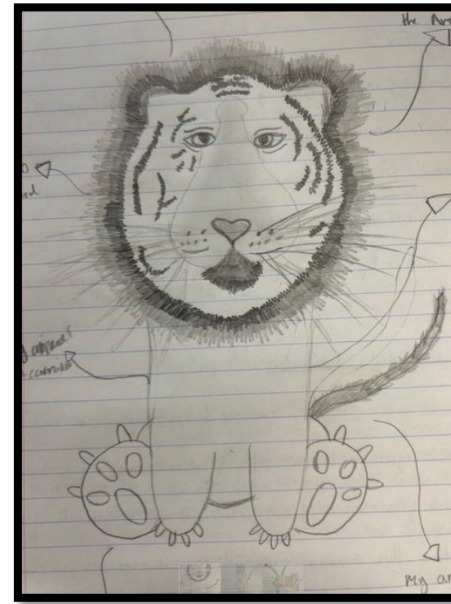

This week in science, we have been investigating filtration to identify properties of separation.

In PE, the Goats have been channelling their inner LeBron James, developing their dribbling and shooting skills in basketball.

In English, we've
been writing non-
chronological
reports about a
newly discovered
animal!

Chipmunks

Well done,
everyone!

Together, we
make a great
team!
