

Welcome to our celebration assembly!

JUNE 13TH 2025

We've been
exploring
different ways to
represent the
number bonds to
10 this week!

Caterpillars

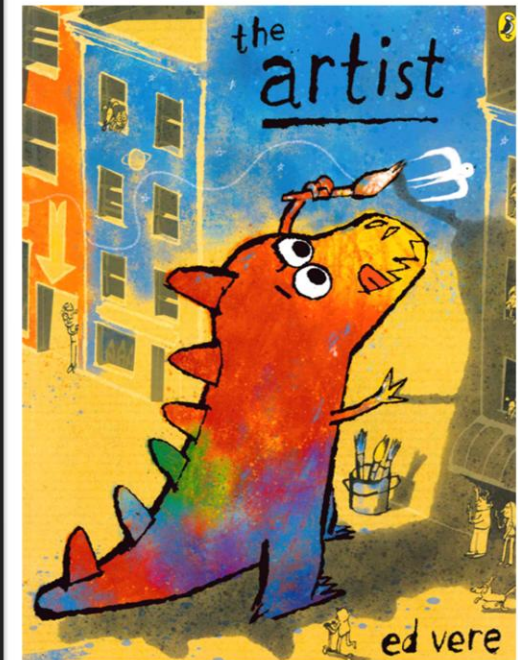

We have had an exciting week thinking about how minibeasts move. We have made our own bug hotels.

Butterflies

We have done
some super
drawing this
week inspired by
our new class
text!

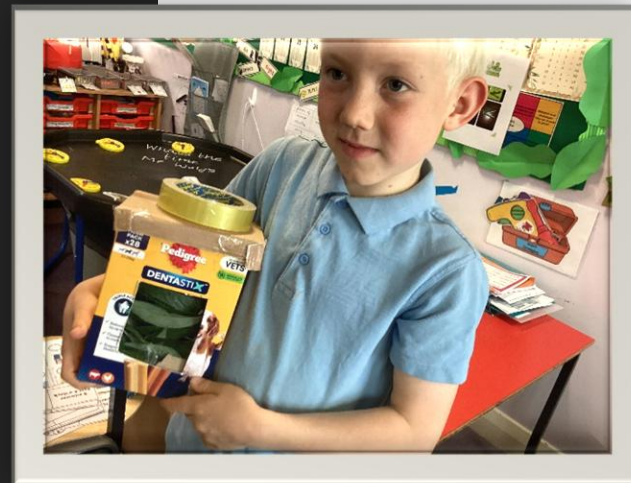

Sunflowers

Poppies

The Poppies have learnt lots outside in the sunshine this week! Making potions, measuring capacity and taking care of a sawfly!

We have enjoyed
using our Funky
Fingers to make
puppets with hair
and to play the
recorder.

We can read and
play so many
different notes
now!

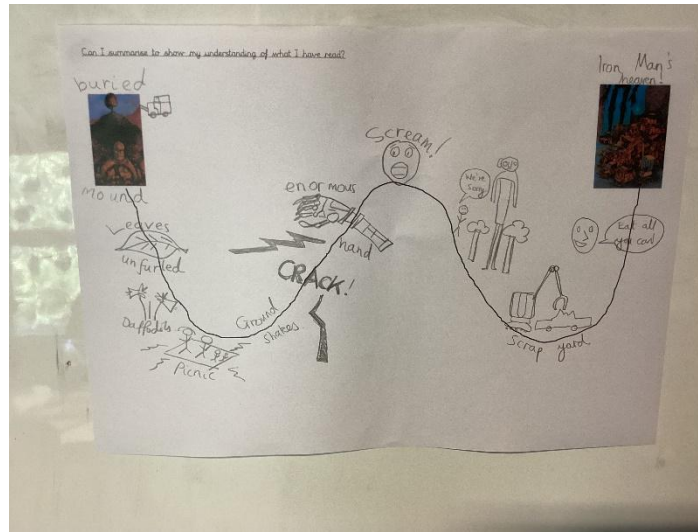

Bluebells

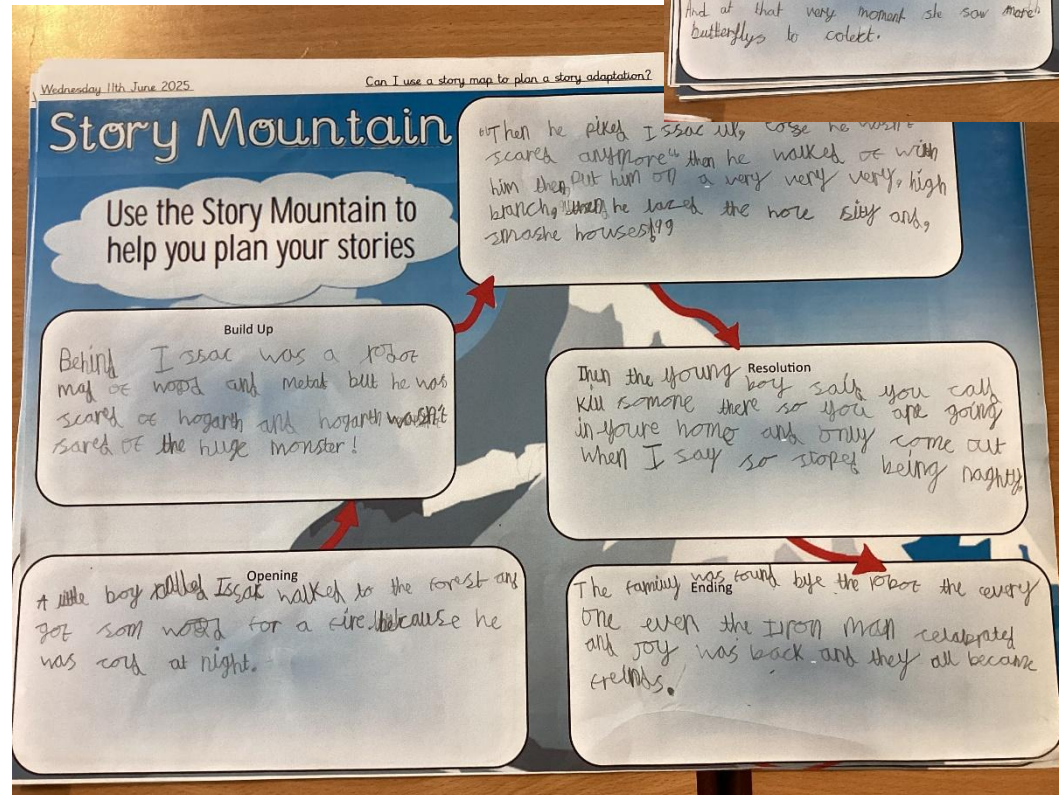

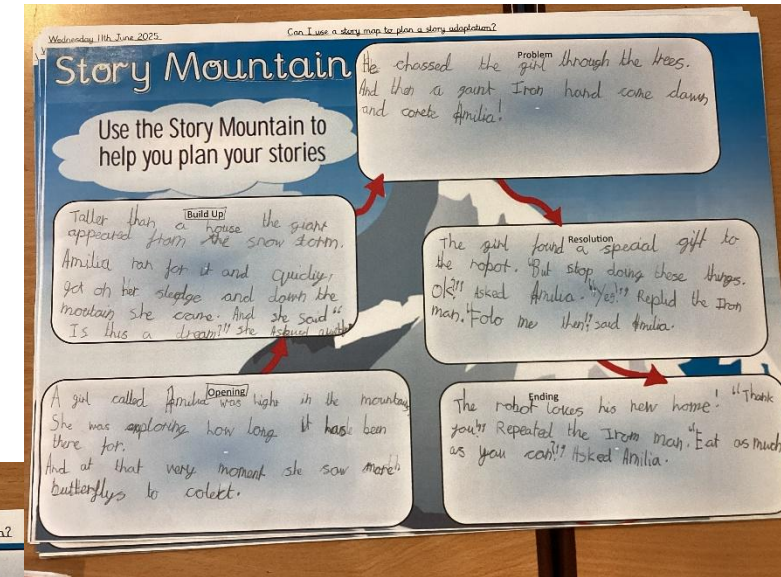

In English this week we have been planning our own story based on the Iron Man.

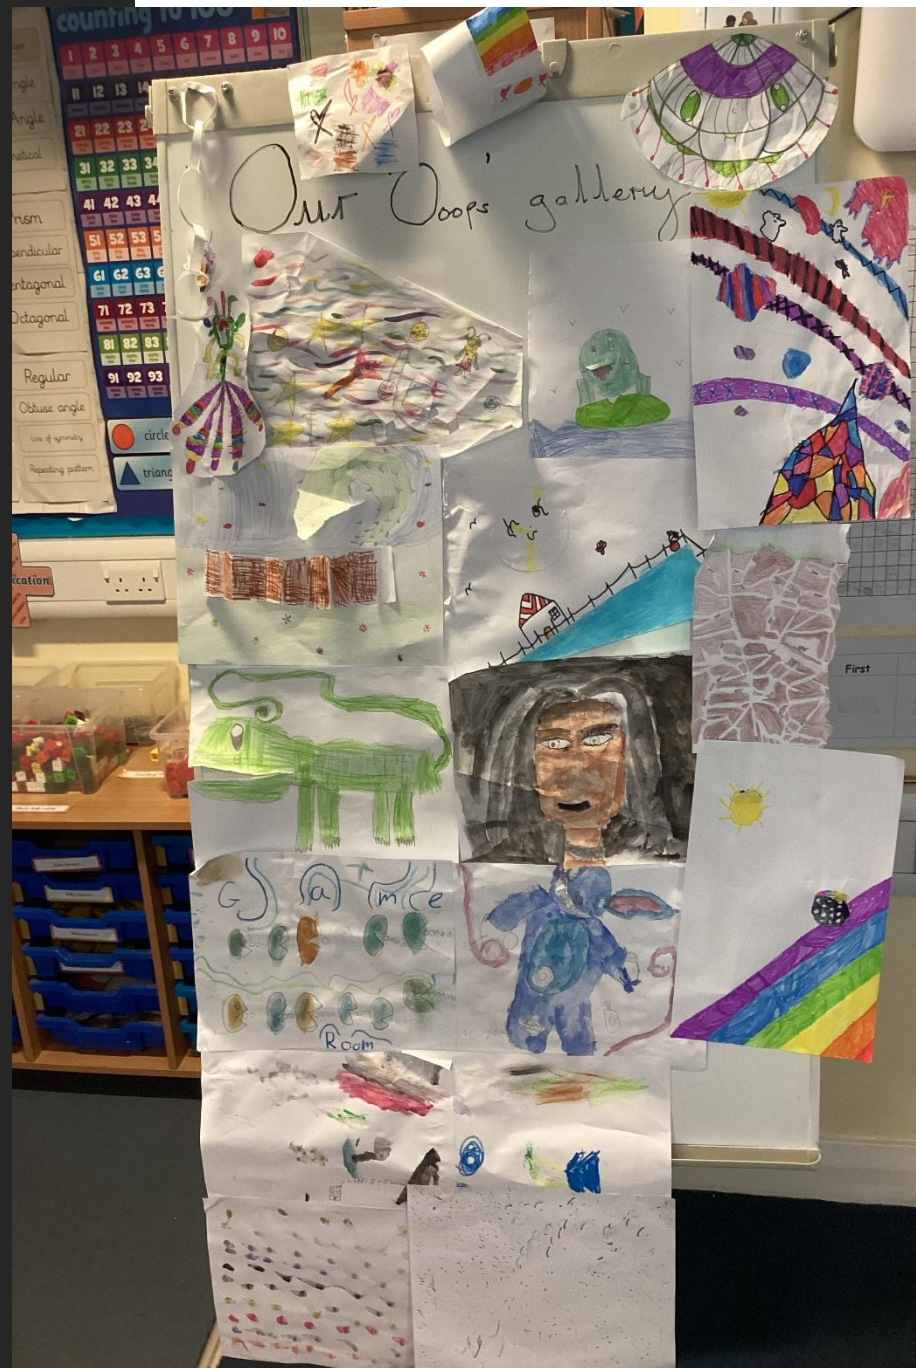

We used our plan to make sure we organised our ideas carefully.

Pines

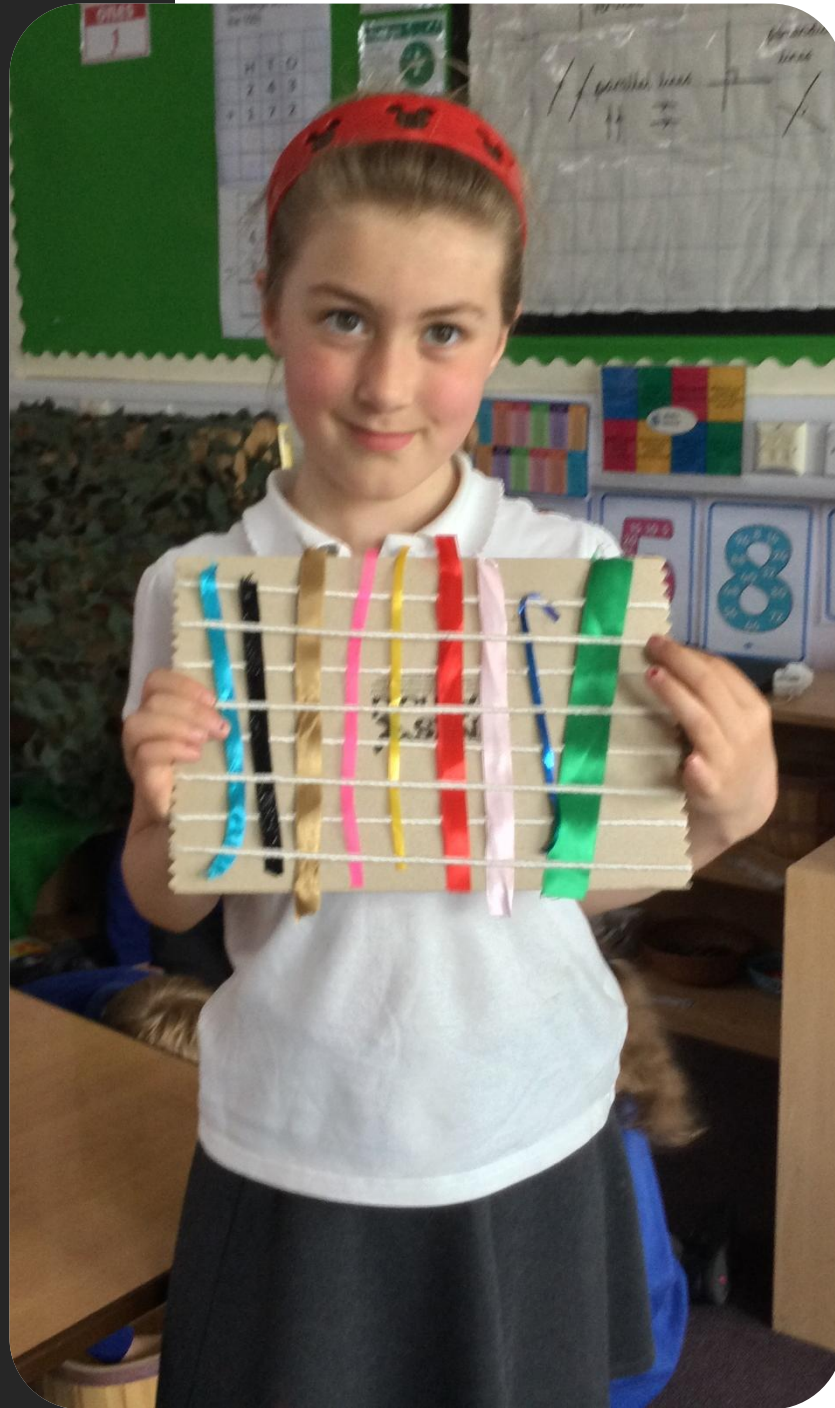

As part of our PSHE learning, we read a wonderful book called Beautiful Oops! The book was about turning mistakes into amazing pieces of art. The Blossoms then created their own incredible 'Oops' gallery.

Blossoms

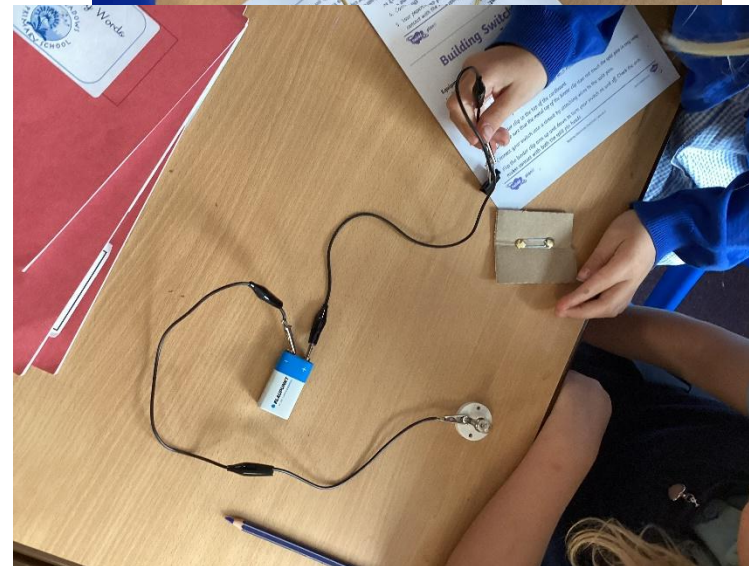

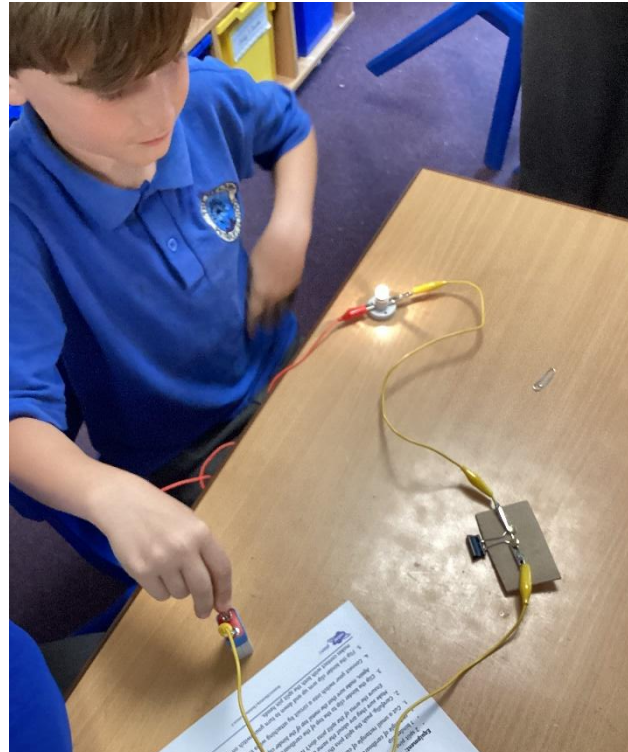

This week,
we had the
opportunity
to enjoyed
practise our
weaving
skills!

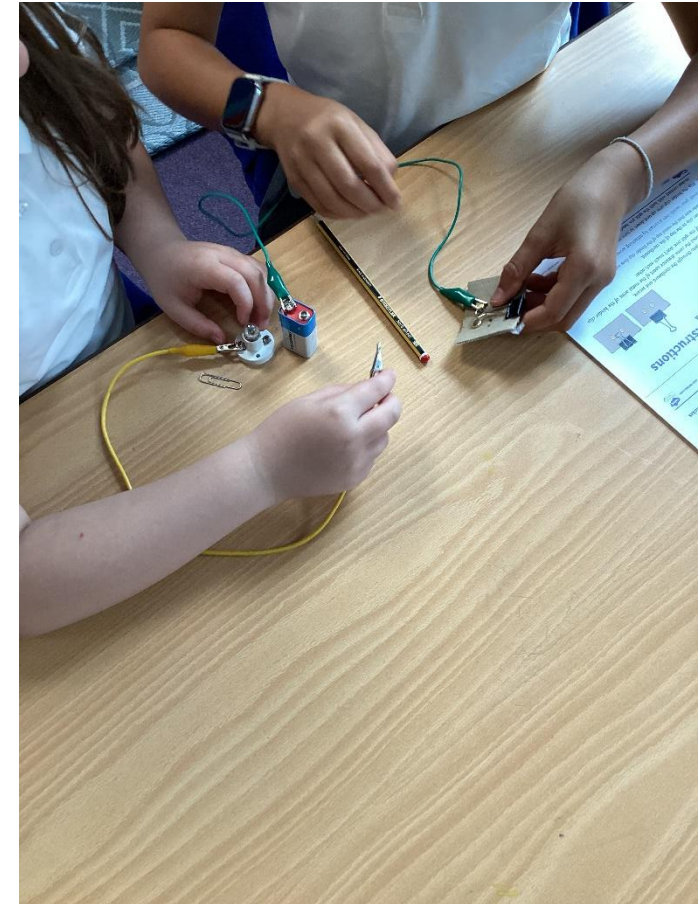

Oaks

We had a great time making and exploring different switches as part of our science learning about electricity.

Willows

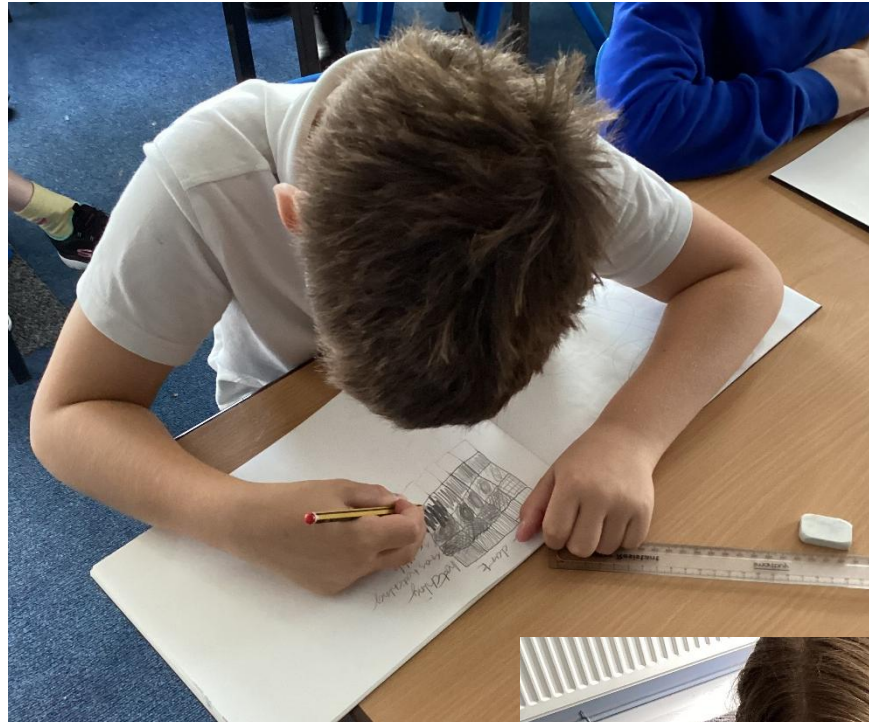

In art, we have been developing our skills using powder paints and water colours.

We have been exploring different ways to colour match using water.

Sycamores

We really enjoyed
practising our
shading
techniques this
week in art.

Hedgehogs

This week, we have been exploring using a variety of materials to create protest art. The children have experimented with charcoal, water colours and oil pastels.

Bunnies

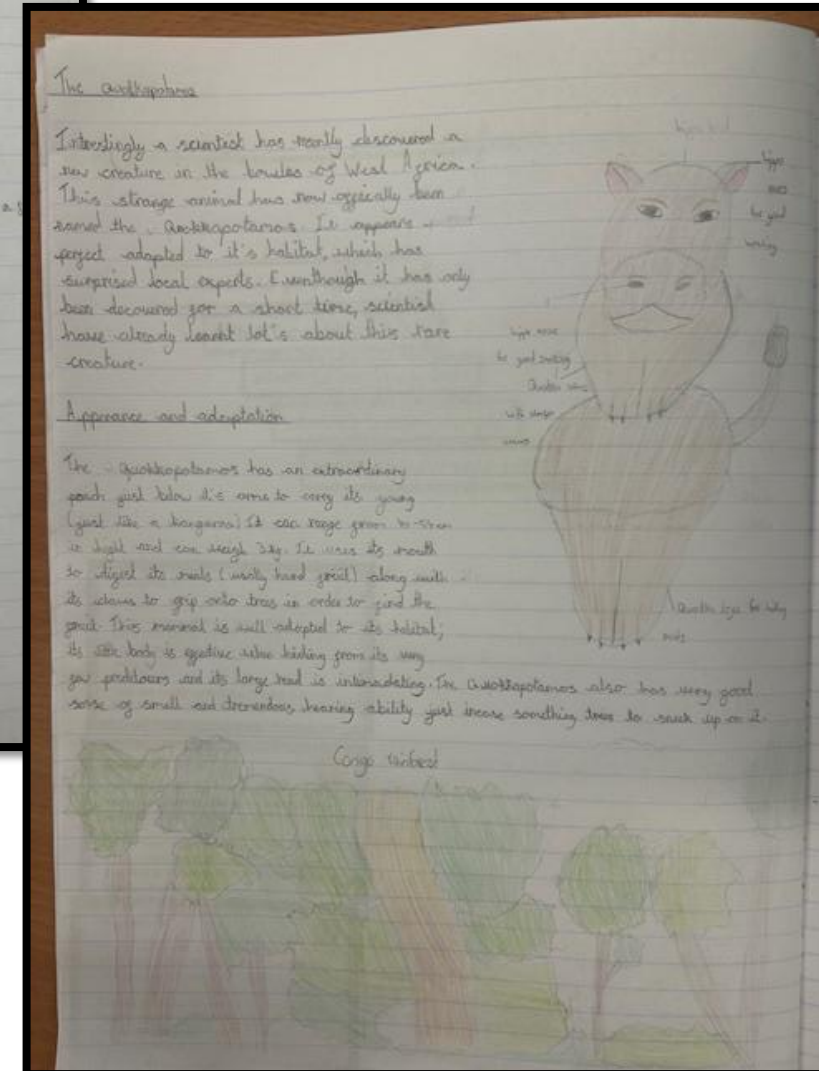

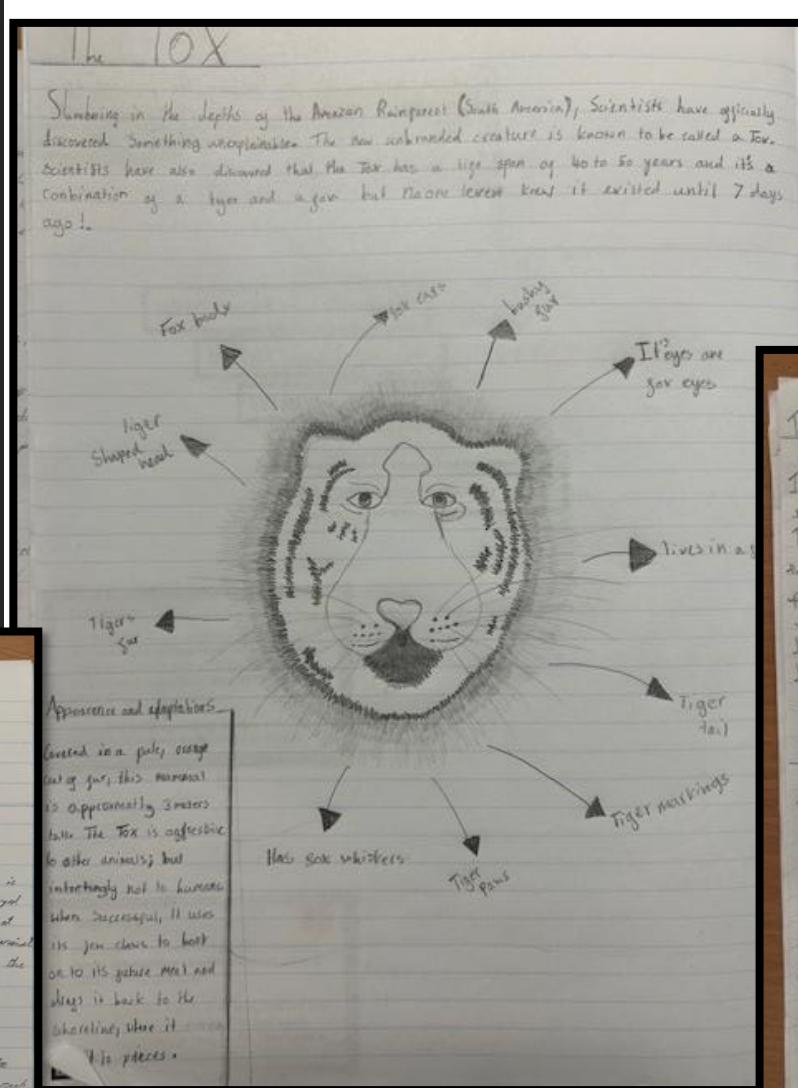

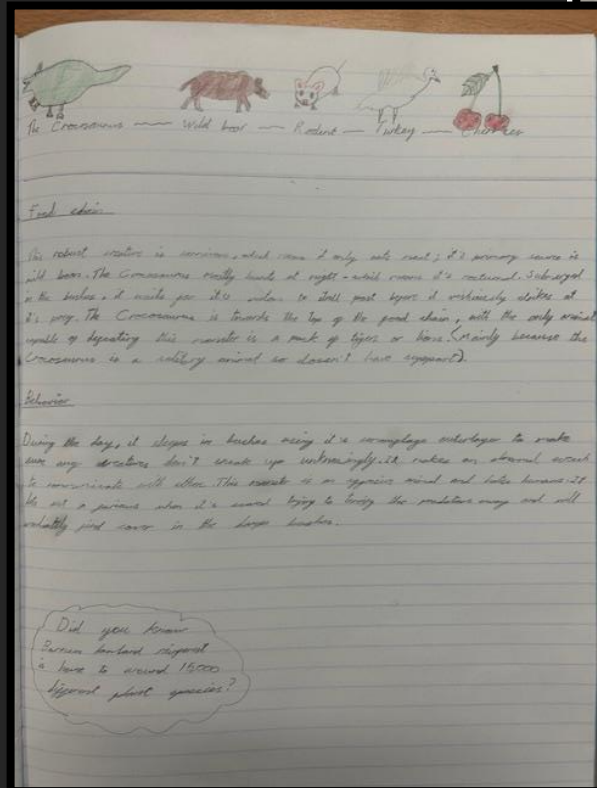

The Goats have
loved
challenging
themselves on
the water this
week!

We completed
various skills in
kayaks and on
paddleboards.

We've worked
incredibly hard
this week to
publish our non-
chronological
reports!

Chipmunks

Our cricket team
were in action
this week in a
local tournament!

Well done, Team
Meadows!

Well done,
everyone!

Together, we
make a great
team!
