

Learning Mat

Our focus is...

Maths Number

Cardinality

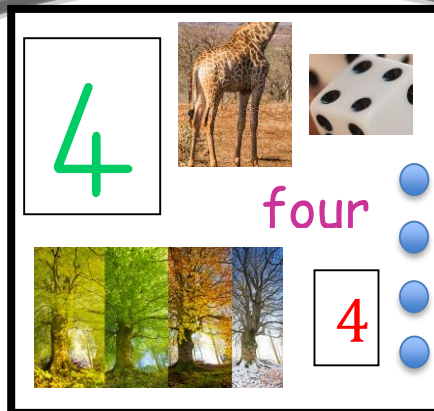

Please use the information below to support your child's learning at home ☺

How many of something: teddies, apples, tins of baked beans, cars, bubbles, legs, jumps, nods of a head ...

What makes one one, two two, ...

The one-ness, two-ness of a number...

Where can you find examples of number in nature?

Labelling of number

Naming and the written symbol and word of a number.

6, 3, 4, 1, 8, 2, 9, 5, 0, 7, 10

Look for variations of number formations, especially 4 and 9.

six, three, four, one, eight, two, nine, five, zero, seven, ten

Investigate

Counting anything...

Looking for patterns of number and number and number symbols all around you, wherever you go.

Do you know any number stories or rhymes? Or stories that include number in their title?

Sets and sub-sets

A whole number and parts that make up that number.

E.g.: 3, three

Are there three in each row?

Pattern

Arrangements of number appear in nature, supermarkets etc. They can be linear or block shapes. E.g.

Ordinality

The order and position of a number,

0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10

first, second, third, fourth, fifth,
