

This week our focus is

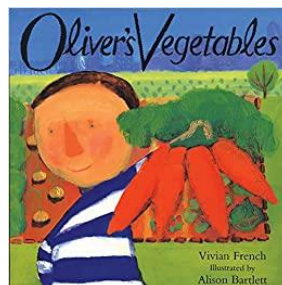

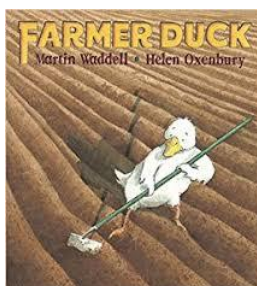

Harvest

Please use the information below to support your child's learning at home ☺

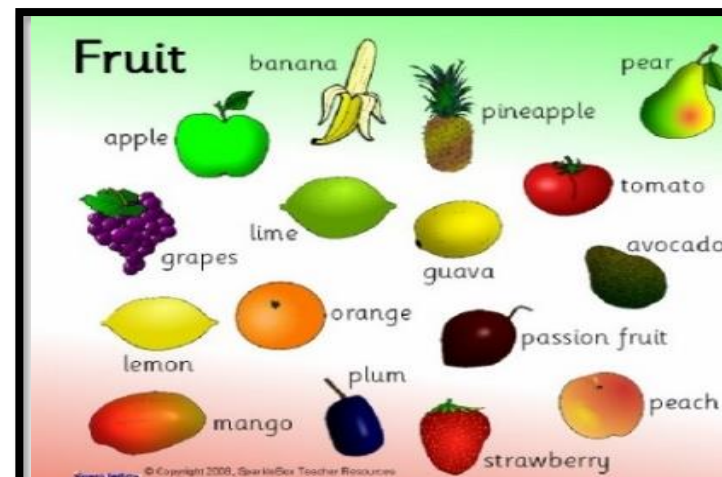

Key Vocabulary

Harvest	A harvest is the name for all the fruit, vegetables and crops that are grown. We collect them and say thank you for our food. We share it with others.
Fruit	Fruit grows on trees and plants and it has seeds inside. It is often sweet and we can eat many fruits.
Vegetable	A plant or part of a plant used as food - for example, a cabbage, carrot, potato, turnip, or bean.
Combine Harvester	A machine that is used to collect the crops from the fields.
thankful	Being grateful for what we have
Cut, chop, slice	Actions we use to prepare our vegetables for soup making!
scientist	A scientist is a person who uses their senses and their knowledge to find out more about the world and how it works.

Books we will be sharing...

Combine Harvester

- ❖ How many different fruits and vegetables can you name?
- ❖ What is your favourite fruit or vegetable?
- ❖ Where does your food come from?
